

# Status Report for CS142 Project 1: Web Browser Prototype

## Team Members

- Nathanael Bracy <[bracynj@clarkson.edu](mailto:bracynj@clarkson.edu)>

## Project Status

Completed

## Functionality

- **File Handling Module:** Successfully implemented; correctly reads and parses text files.
- **Anchor Processing Module:** Anchors detected and formatted as `<text>[n]`; special elements (`<br>` and `<p>`) handled properly.
- **Navigation Module:** Backward navigation implemented; users can use the `go`, `open` and `back` commands to open files.
- **Formatting Module:** Text output meets user-defined line length requirements.

## Outstanding Issues

None

## Conclusion

The prototype web browser is fully functional and meets all specifications as designed.
